

Beeville Theater Undergoing Restoration.
From KRISTV.Com Broadcast on March 2, 2006

The historic Rialto Theater in Beeville, which opened back in 1922, is undergoing a major renovation.

Construction crews have just completed work on the building exterior, including repairs to the neon lights on the theater's marquee and a new ceiling has been installed. The next step is renovating the interior so it can be used for live theatrical productions.

On a historical Note, we're told the first time the call letters KRIS were ever broadcast, was from KRIS radio, which was located atop the theater in 1922.
